

Action By U. S. Blocks Rail Strike; Lift Food Embargo

Washington, May 11 (AP)—The railroads ran as usual under government direction today and the army lifted the emergency embargo on shipment of perishable goods.

The action restoring freight service to normal came after the government forced the engineers, firemen and switchmen to call off a strike set for this morning.

Eighty-eight lines had banned shipments of perishables during the week-end to prevent them from being stranded in event of a walkout. Many cancelled the embargoes last night, however, in advance of the army order.

Hearing In Eight Days
The rail unions called off the threatened strike in compliance with a court order from Justice T. Alan Goldsborough—the federal judge who twice fined John L. Lewis for contempt in mine strikes.

But the long and bitter railroad case is not ended.

Goldsborough's "temporary restraining order" (a type of injunction) expires May 19, eight days from today. The judge set a hearing for that date on the government's request for a longer injunction. The three unions will have their chance then to fight back.

There were other question marks too.

Dispute Stands
President Truman had to seize the railroads to ward off the strike. The army thus found itself in technical possession of the country's immense network of railroads. How would it deal with the unions? When could it turn the properties back to their owners without risking a new dead-lock and an actual strike?

The 11-month-old dispute over wages and working rules is not settled. Presidential assistant John R. Steelman had labored for days to persuade the railroad operators and the unions to come to an agreement. But he failed and yesterday's seizure order was the result.

SAYS U.S. WILL SEEK TO AVOID PALESTINE WAR

The United States will continue to press for a truce in Palestine to prevent blood shed and for solution of the problem there through the United Nations, Dr. Dean Rusk, director of the office of United Nations Affairs of the U. S. State Department, told members of the International club of Gettysburg college Monday evening in a talk at Glatfelter hall.

The Palestine question came before the United Nations about a year ago when the United Kingdom, deciding it no longer could handle its mandate over Palestine, placed the question before the United Nations, Dr. Rusk explained. Prior to that date the United States had been trying to work with the United Kingdom for a bi-lateral solution of the problem involved.

"When Palestine was placed before the UN, the United States decided to deal with the question of Palestine only as part of the United Nations and not individually," he said. When the idea was presented that a commission of 11 nations be appointed to investigate the Palestine situation the United States backed the idea.

Lacked World Backing
"The United States backed the commission's report, but made several suggestions for changes in the proposed boundary to prevent the establishment of a minority of 400,000 Arabs in the Jewish state. The decision of the assembly, however, did not have the prestige that it needed if it were to succeed," Dr. Rusk said, "and in the security council several nations abstained from voting, thus making the resolution a failure without united world opinion back of it."

The next question was whether the struggle in Palestine was a threat to peace. When the United Kingdom was asked, it said that there was a judgment on facts the rest will have to make, and it abstained. China and France also would not decide whether a threat to peace existed.

"If force is to be used where does force begin?" Dr. Rusk asked. "There have been many decisions before. What about Greece? And what about Korea? What about the United Kingdom in a previous case when it failed to comply with a resolution? It was not a theoretical question, it was a question of the whole nature of the United Nations. To use force in the Palestine question but not in others would place

GIVE MUSICAL PROGRAM FOR ROTARY CLUB

The old and new combined Monday evening in the presentation of a program of music for the local Rotary club.

With the Rev. Robert M. Hunt acting as master of ceremonies the Rotarians at their regular session, held in the YWCA, heard the music of the ancient suio, a bamboo flute that has been one of the basic Chinese instruments for centuries. They also heard a more modern folk invention — the musical saw, and heard top ranking contralto and baritone voices singing modern songs.

James Liu, Chinese minister who is studying at the Lutheran Theological seminary here, demonstrated the amazing tone and excellent music that can be secured from a carpenter's saw, a bow and a skillful hand. He then demonstrated the ancient bamboo musical instrument, playing on it a native Chinese melody.

Guest Soloists
Eden Nicholas and Mrs. Clarence Bartholomew presented the songs, accompanied by Mrs. Robert M. Hunt. Mrs. Bartholomew sang "Take Joy Home," "Desert Song," "My Hero" and "It's a Grand Night for Singing."

Mr. Nicholas sang "Without a Song," "Danny Boy," "You'll Never Walk Alone," from "Carousel" and "Old Man River."

Fifty members attended the meeting. The president, Dr. C. Harold Johnson, presided.

Neither Mills nor two passengers riding with him were injured, according to police, who estimated damage to the automobile at \$500 and to the house at \$300. The investigation is being continued.

A dairy truck owned by the West End Dairy, Hanover, and driven by Robert A. Brodbeck, 26, McSherrytown, struck a bridge guard rail and upset near the Hanover Shoe farms Monday, state police said. Brodbeck was en route to Littlestown. The truck upset after running down an embankment. Fifteen cases of milk were spilled.

Believe Watch May Have Been In Loot

A Gettysburg college coed, Margaret Graefe, has asked borough police to check the list of articles recovered in the automobile of Mrs. Lillian Lucile Becker, California divorcee arrested in Maryland, to see if her Hamilton gold wrist watch is among them.

Mrs. Becker confessed, according to Maryland authorities, to taking money and jewelry from women's dormitories at several colleges, Gettysburg among them. It was first believed that only money was taken here, but Miss Graefe told police that she has been unable to find her watch since Mrs. Becker's visit here on April 28.

Mrs. Becker was arrested in Maryland for thefts from a girls' dormitory at Washington college. Local authorities sent a detainer for her, for the theft of approximately \$25 in cash.

THREE MEN ARE ARRESTED FOR THEFT OF AUTO

Frederick, Md., police recovered the automobile of a Gettysburg man before he knew it was stolen and arrested three occupants, who were held for the FBI on an inter-state larceny charge.

The driver of the car was identified as William Shirley Cook, 29, of Gettysburg. Frederick authorities said they were informed he had recently been released after serving a three-year term for car theft. The other occupants were listed as George Rager, 27, and Harold M. Franklin, 25, also of Gettysburg. They were in jail here awaiting FBI action.

An investigation by Officer Ralph Potts resulted in the arrests. Officer Potts according to reports, first saw the car in Frederick Sunday with three men in it. Later he saw it with only one man in it. When he saw it for the third time with three men inside, his suspicions were aroused and he stopped it.

The driver could produce no operator's license and no registration card. Officer Potts noted that there was no ignition key. The investigation developed that some wiring had been crossed, evidently to start the machine. Statements were procured from the occupants and the charges were preferred.

Frederick police notified Pennsylvania authorities, who in turn called William L. Loughman, 7 Hanover street, Gettysburg, the owner of the machine. Loughman at first could not believe the car was stolen, officers said. He had parked it in front of his residence Saturday night and thought it was still there.

Washington, May 11 (AP)—President Truman said today that the American bid to Soviet Foreign Minister Molotov for "decent and reasonable relations" between the two countries "represented no new departure in American policy."

His purpose, Mr. Truman said in a formal statement, was to make it "unmistakably clear that the United States has no hostile or aggressive designs whatsoever with respect to the Soviet Union."

The President's statement did not indicate whether the note of Ambassador Walter Bedell Smith to Molotov May 4 might be construed as an American proposal for discussion and settlement of existing differences between the two nations.

The board voted to reject all bids received for a new roof on the high school and postpone the laying of a new roof for another year. Dr. Keefe reported that the roof came through the last heavy rains without leaking. The board also recognized the fact that it would be impossible for a new roof to be laid before July 1, when the new jointure goes into effect.

Two other proposed improvements were referred to the property committee of the new jointure, the painting of the inside and outside of the high school, and repairs to the walls of the Tiber near the Meade school. Both were named as (Please Turn to Page 4)

the United Nations in the position of using force against small nations and not against the big ones.

U. S. Seeks Truce

"Unable to get enough nations willing to provide troops, the only thing left for the United States and the United Nations to do was to press for a truce. About a week ago an attempt was made to get a ten-day truce, but the United Kingdom said that it could not stay there ten days longer because of parliamentary resolution which demanded that the troops be withdrawn at that time. The Jewish Agency, which is elected by the world rather than by Palestine said it could not take the moral responsibility involved and the Arabs did not seem willing.

"When the British get out May 15 there will be a de facto partition on the ground, at Palestine. The Jewish group will be holding their own and the Arabs theirs and the two groups will operate their own governments. If both sides decide to merely remain inside the limits they held now then partition will have been effected and there will be no war. If both sides decide to fight, the Jewish people, being fewer than the Arabs might eventually be annihilated. The United States will work as long and as well as it can to prevent that bloodshed and suffering and destruction, and it will work through the United Nations to secure those ends."

"This is a community fair, a county fair, and the people will put on and conduct it as they see fit. East Berlin and Littletown high schools won shutout victories in postponement playoffs in the Adams County Baseball league Monday afternoon.

The East Berlin lads blanked New Oxford 7-0 at Biglerville to remain unbeaten in league competition and thereby picked up ground on the idle Boiling Springs lads. Dick Pitzer collected three of the Cannons' four hits off Hull.

New Oxford's 10-0 triumph over Littletown on the latter's field proved costly as Jack Harner, pitcher, fractured his right ankle in sliding into second base. He will be lost for the remainder of the season.

Harner and Mechtly contrived to hurl a one-hitter for New Oxford. Gimmell's single breaking up the no-hitter.

Eastern League

(By The Associated Press)

Bob Di Pietro's 10th-inning home run with the bases loaded gave the Scranton Miners a 7-3 triumph last night over the Binghamton triplets in the eastern league's only game.

The boundary belt—Di Pietro's third in two days at Binghamton—widened the Miners' narrow first place lead over Williamsport to a full game. And it dumped the trips into second division.

Di Pietro, an outfielder converted into a third baseman, batted in six runs. He doubled with the bases loaded in the seventh when the Miners scored three times to tie the score.

Almost 40 per cent of the land area of the United States—or about 740 million acres lying in 17 western states—receives too little rainfall for safe general agriculture unless irrigated.

Harrisburg Climbs Into Fourth Place

(By The Associated Press)
The Wilmington Blue Rocks strengthened their hold on the Inter-State league lead last night, turning back the Allentown Cardinals 9-5. The victory was the sixth straight win for Wilmington and gave the Blue Rocks a clean sweep of the three-game Allentown series.

Sunbury clung to second place, a game behind Wilmington, by defeating York 7-5. York Manager Oeak and Bud Upright were ejected from the game in the seventh inning for protesting too vehemently a strike decision by Umpire Slesser.

The third place Trenton Giants turned back the Lancaster Red Roses 6-1 on the eight-hit hurling of James MacFaden. Trenton third baseman Stan Jot hit a homer in the seventh with one aboard. The Harrisburg Senators slipped into fourth place by defeating Hagerstown 13-8 while Allentown was losing to Wilmington.

Johnny Sain, Braves—although tagged for 10 hits, the strong-armed righthander shut out the Cardinals for Boston 6-0 to snap a St. Louis five-game winning streak.

ELMER RIDDLE COPS 3RD WIN; RED SOX LOSE

(By The Associated Press)

Any doubts over Elmer Riddle's comeback, termed by Pittsburgh's part-owner Bing Crosby as the "greatest since Al Jolson," were definitely dispelled today.

The gritty 31-year-old righthander, forced to quit baseball four years ago because of an ailing arm, proved his previous stellar performances were no mere flashes in the pan last night when he pitched the Pirates to a 4-2 victory over the Brooklyn Dodgers.

Purchased last winter from the Cincinnati Reds for the \$10,000 waiver price strictly as a gamble, Riddle has turned out to be the ace of Pittsburgh's mound corps. Last night's triumph was the third in a row for the Columbus, Ga., veteran, his fourth outstanding mound job in as many starts.

The triumph, coupled with Boston's 6-0 victory over the Cardinals in a night game in St. Louis, put the Pirates in a virtual tie for first place with the idle New York Giants and the Redbirds. The Cardinals, however, still maintained a 14-point mathematical advantage, although the three teams are even-step in games won and lost. St. Louis has won 10 and lost six for a .625 percentage. New York and Pittsburgh own 11-7 records for .611.

Blanks Cards

Although Johnny Sain of Boston was clipped for 10 hits, he became the first pitcher to shut out the Cards this season. It occurred in a night game in St. Louis. The victory boosted the Braves into a three-way tie with Brooklyn and Philadelphia's Phillies for fourth place, two and a half games behind the leaders. Each team has won nine and lost 10.

The Cleveland Indians strengthened their hold on first place in the American league by outslugging the Red Sox in Boston 12-7. It was the fifth triumph for the Indians and the fifth straight loss for Joe Mc-

The victory enabled the Indians to increase their first place lead over the idle Philadelphia Athle-tics to 27 percentage points. The teams are tied in games won and lost.

Nats Trim Browns

The third place New York Yan-kees swamped the Chicago White Sox, 9-3, to keep within a game of the lead. Joe DiMaggio, Bill Johnson and George Stinweiss each ham-mered home runs off the White Sox' Bill Wight and Earl Harriet.

Early Wynn registered his third victory with a five-hit performance as he pitched the Washington Sena-tors to a 6-2 triumph over the St. Louis Browns in a night contest at the Capital City. The victory shoved the Senators into the first division with a .500 rating.

The National league's only sched-uled day game, between the Giants and Cubs in Chicago, was post-poned because of rain. All other teams in the majors were not sched-uled.

SOFTBALL LOOP OPENS MONDAY

The long-delayed opening of the Community Softball league was finally held Monday evening when the Inductive Equipment and Knox's Store scored victories on the high school field.

In the opening game the Inductive outfit pounded over four runs in the first frame and went on to win handily, 9-3.

A four-run rally in the fifth inn-ing gave Knox's Store a 6-5 victory over the Grandview nine in the nightcap.

Out Of The Past

From the Files of the

FIFTY YEARS AGO

Dewey's Unparalleled Victory: The entire fleet of eleven Spanish vessels has been destroyed, with losses in killed and wounded running far up into the hundreds, while the American fleet lost not a single man, and only eight were slightly injured. This is unparalleled in the world's history of wars. Although the Spanish claim to have had three formidable forts, with modern guns, heavily manned, they have all been reduced to silence, and the victory is complete. Dewey will protect the property of foreigners. He cut the cable to prevent any messages being sent to Spain and probably to forestall any possible foreign interference.

The story of the American victory at Manila shows the adroitness of Commodore Dewey. One Saturday night, the American ships crept in under the moon without being seen until the McCullough's funnel emitted a spark. Then a few shots were exchanged with Corregidor Island, but the fleet never stopped or slowed down opposite the city until dawn.

Dewey Now an Admiral: Washington, D. C., May 7.—By direction of the President, Secretary Long sent the following cable dispatch to Commodore Dewey:

"The President in the name of the American people, thanks you and your officers and men for your splendid achievement and overwhelming victory. In recognition he has appointed you Acting Admiral and will recommend vote of thanks to you as foundation for further promotion by Congress."

Death's Doings: Mr. Hart Gilbert died at his home on Carlisle street Monday afternoon, aged 52 years, 5 months and 20 days.

Mr. Gilbert was born in this place and was graduated from the college in 1867. After reading law under R. G. McCreary, Esq., he was admitted to the Bar of Adams county in 1872. For some time he practiced his profession but his inclination ran rather to the teacher's chair. He served as principal of the schools at Newberry, S. C., and filled the Latin Professorship at Shippensburg State Normal School.

When General Harrison became President, Mr. Gilbert was made Collector of Internal Revenue. This position he held until succeeded by the present incumbent, S. Miley Miller. From May, 1896 until April of this year, Mr. Gilbert was the Editor of the Star and Sentinel, retiring on account of his health.

The funeral will occur on Thursday morning at his late residence, the service to be conducted by Rev. H. C. Allen, assisted by Dr. M. Valentine.

Judge Swope, John L. Hill, Jr., C. H. Ruff, Morgan Mickle, Harry C. Picking and Guyon H. Buehler will act as pallbearers.

On Friday night at 10 o'clock, Mr. George Holtzworth, of this place, went to bed feeling well as usual, and at eleven o'clock he died from a stroke of paralysis. A wife and two children survive him.

In 1861 he volunteered in Co. F, 87th Pa. Vol. and served to the close of the war.

He was buried Monday afternoon in Evergreen Cemetery with the honor of war. Rev. Geo. M. Glenn conducted the funeral services.

Six comrades, Wm. T. Ziegler, Wm. Sheads, John H. Sheads, Chas. E. Armor, Wm. H. Rupp and Perry J. Tawney, all members of his company, acted as pallbearers.

Today's Talk

YOUR WILL TO DO IT

Opportunities never run out! Times change but human nature does not. Whoever you are, your will to do may be as fresh and as alert as the earliest of pioneers. New beginnings are scattered everywhere. It is the privilege of anyone to venture. But, no matter what your objective, what counts most is your will to do it.

Recently I listened to the talk of a famous entertainer, who came to America as an immigrant. He did anything that he could get to do—washed dishes and waited on people in a restaurant, worked in the streets—anything to earn his keep, but he kept saving, as well. He started a small store, then took to music, soon being widely acclaimed. He was asked what he thought of the opportunities of America, and if anyone could succeed here. He said there was no place like it, and that anyone could rise if he had the will to do it.

The accomplishments of thousands of people who have risen from obscurity are almost unbelievable, as you read about them, yet the secret is an open one—they merely exercised their will to do the thing at hand, or the thing in mind, even doing the thing that people said couldn't be done!

In my youth I heard an inspiring lecture by Russell H. Conwell, called "Acres of Diamonds," in which he told about people who had risen to fame and wealth merely by taking advantage of the opportunities that were close at hand. Ideas hatch—and then they spread!

In the town of New Britain, Conn., in 1810, was born Elihu Burritt. He was a blacksmith but so eager was he for knowledge that he learned some forty languages as he worked his forge. He became known as "The Learned Blacksmith," once editing a weekly at Worcester, Mass., devoted largely to the advocating of peace, to which he gave over 40 years of his life. In 1846 he organized the League of Universal Brotherhood whose members pledged themselves to abstain from war. Who can measure the influence of such a human being, born with the will to be useful and to lead others to do the same?

How simple it is to be a success if you but will to be one, doing the thing nearest at hand, keeping an alert eye, and always aiming at the same thing most desired!

Tomorrow Mr. Adams will talk on the subject: "To Be Appreciated."

MR. ANON.

Of all our writers, there is none more gifted than the chap "Anon." Differing from Mr. X, his name is often linked to wholesome fame. Though unidentified he lives, Delight unto the world he gives. Sometimes, as his, the papers quote Great lines that Shakespeare thought he wrote.

Full many a gem goes shining on, The credit given to "Anon." Prolific and profound is he. 'Tis wonder that one man can be Always so witty and so wise, So given to mental enterprise That he, 'neath inspiration's spell Can write so much, and write so well.

There are some authors whom I know Whose names with shining lustre glow, But as the years go winging on, I've never come across the one Whose work is always signed: "Anon."

PA. HISTORIANS GATHERING DATA

Harrisburg, May 11 (AP)—Armed with a \$50,000 grant, state historians are combing through mountains of old documents in an effort to make a complete record of Pennsylvania's early history.

Research teams, using microfilm equipment, are making expeditions into Canada and other points in quest of material which will fill in present gaps in Commonwealth history.

"This is a concerted effort to make the Keystone state's repository of historical source material one of the finest in the nation," said Dr. Donald Cadzow, executive director of the Pennsylvania historical and museum commission. He said the work is directed at colonial and post-revolutionary Pennsylvania.

The director said a research team is now at Ann Arbor, Mich., studying manuscript and map collections in the University of Michigan's William L. Clements library.

The Clements library is providing material on British operations in Pennsylvania during the American revolution, Dr. Cadzow explained. He said one of the maps under examination is a complete topographical study of the region between the Chesapeake Bay and New York.

SCHOOL BOARD

"musts" but like the new roof, impossible to complete before the jointure takes over.

Table Library Request
It was pointed out that the painting job could not be started until after the close of school. Director George Raffensperger said that the Tiber wall for at least 12 feet had fallen in and was likely to create a dangerous condition.

Firemen who went to the High Street school to put a new rope in the flagpole could not get close enough, Mr. Raffensperger reported, so a smaller pole will be erected in the school yard, he said.

A request from the Adams County Free Library for a contribution from the school board was tabled until after the jointure goes into effect.

Turn Down Lions
The board received an invitation from Jay Schmidt, president of the high school alumni association, inviting its members to the annual alumni banquet to be held at the high school May 28. A motion was adopted thanking the association for the invitation. Dr. Keefeaver will notify the committee later how many board members will attend.

The board authorized Dr. Keefeaver to make arrangements for distribution of tickets for the commencement exercises to be held Tuesday evening, June 1, at which David E. Lillenthal, chairman of the Atomic Energy Commission will be the speaker. The baccalaureate service will be held Sunday evening, May 30.

The board decided against allowing the Lions club the use of the cafeteria for summer dinner meetings and a part of the playground for the men to play ball afterward, on the ground that all available space is in use each night and that the board could hardly request children to give up use of the playground for these older men.

SENTENCED TO 2 LIFE TERMS, DIES

Pittsburgh, May 11 (AP)—John Dewey Seever, who, while serving a life term for murder, risked his life by asking to go on trial for a second slaying, is dead. Seever died in Western Penitentiary where he had been an inmate for 19 years. It was back in 1929 that Seever's wife and Mrs. Catherine Rodgers were shot to death on a road near New Castle. Seever was convicted of first degree murder in the death of his wife and handed a life sentence. He spent seven years in prison and then, in a strange gamble for freedom, he asked in 1936 to be tried for the murder of Mrs. Rodgers. Even if he had been acquitted, the conviction of the murder of his wife still stood. All he could hope for was that his sentence would be commuted on the strength of an acquittal in the second trial. The jury found him guilty and imposed a second life sentence. He could have been sent to the electric chair. Seever contended in the second trial that he was insane from a disease which was aggravated by alcohol at the time of the shootings.

A New Name for a PUBLIC SERVICE

With the approval of its stockholders, the name of Columbia Gas & Electric Corporation has been changed to

THE COLUMBIA GAS SYSTEM, INC.

Since the Corporation divested itself of its electrical properties under the provisions of the Public Utilities Holding Company Act, the new name becomes more descriptive of the System's functions in public service.

The Corporation and its operating subsidiaries have long been known, unofficially, as the COLUMBIA GAS SYSTEM. Now, with the formal approval at the Annual Stockholders Meeting on April 29th at Wilmington, Delaware, the new corporate title becomes official.

COLUMBIA GAS SYSTEM serves

1,000,000 homes, businesses and industries with natural gas directly through its own distribution lines, and another 800,000 customers through wholesale deliveries to other utilities in cities such as Washington, D. C., Cincinnati and Dayton, Ohio. Last year the System delivered 231 billion cubic feet of gas through some 31,000 miles of transmission and distribution lines. The System is even now preparing to deliver by 1950 in excess of 300 billion cubic feet of natural gas annually.
